color:red;

property value

property: value(s);

A diagram illustrating the structure of a CSS declaration. It features a red rounded rectangle containing the text "color:red" in white. A blue semicolon ";" is positioned to the right of the rectangle. Two black arrows point upwards from the labels "property" and "value" to the words "color" and "red" respectively.

color:red;

property value

A diagram illustrating a CSS declaration with multiple values. It features a red rounded rectangle containing the text "border:1px solid blue" in white. A blue semicolon ";" is positioned to the right of the rectangle. Two black arrows point upwards from the labels "property" and "values" to the words "border" and "solid" respectively.

border:1px solid blue;

property values

CSS: “Inline” and “Internal”
