JavaScript Data Types

- What are the objects?

- How many objects are in this image?

- What are the object properties ("object literals")?

Objects

```json
{
    "message": "success",
    "people": [
        {
            "name": "Cai Xuzhe",
            "craft": "Tiangong"
        },
        {
            "name": "Chen Dong",
            "craft": "Tiangong"
        },
        {
            "name": "Liu Yang",
            "craft": "Tiangong"
        },
```
